

Swegon **INSIDE**

Connect WISE system to Swegon **INSIDE** cloud to utilise our connected cloud services.

Connecting your WISE system

Guide to making your WISE system INSIDE Ready ([INSIDE Ready | www.swegon.com](https://www.swegon.com))

Make sure you have SW 1.150.1 or later (lowest recommended version: 1.180)

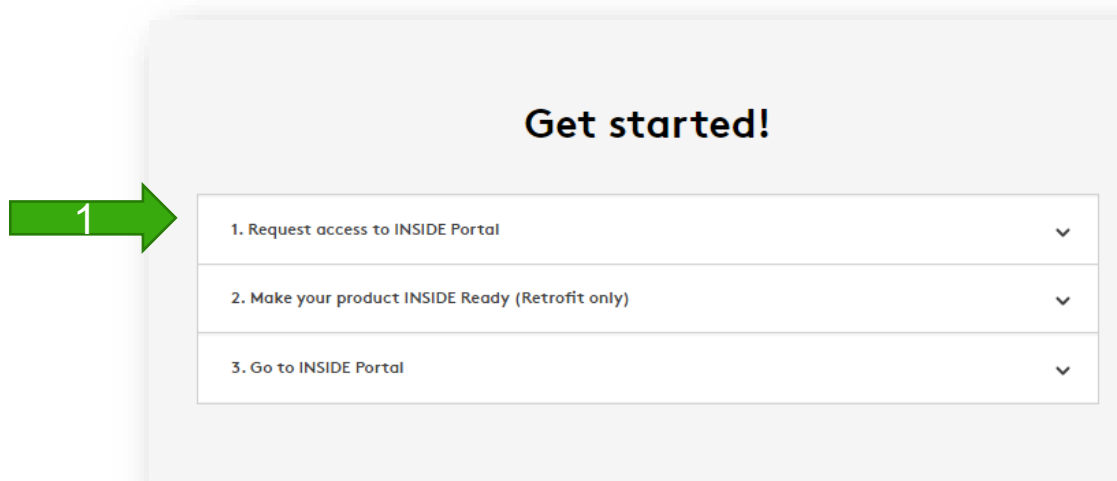

The screenshot displays the Swegon settings interface. On the left, a dark sidebar contains a list of menu items: Overview, Tree, Plan, Alarm, Graph & Log, Sequences, Change log, Notes, Optimization, Function groups, Commissioning, Schedule, Documentation, Settings (highlighted with a red box), and Users. The main content area is divided into two columns. The left column lists various settings categories: Time & date, Software (highlighted with a red box), Configuration, Communication, Plan, Plan configuration, Sequence settings, BACnet, Site, Units, Alarm, Parameter selection, File manager, Backup & restore, Reset, and Language. The right column shows the 'SuperWISE software' section, which includes a table with the following data:

SuperWISE software	
Software version	1.180
CORE	
CU	
Director application	
TuneWISE	

Below the table is the 'Update Software' section, which features a 'Select file' button and a file type indicator '.zip / .wsz'.

Request access to INSIDE Portal

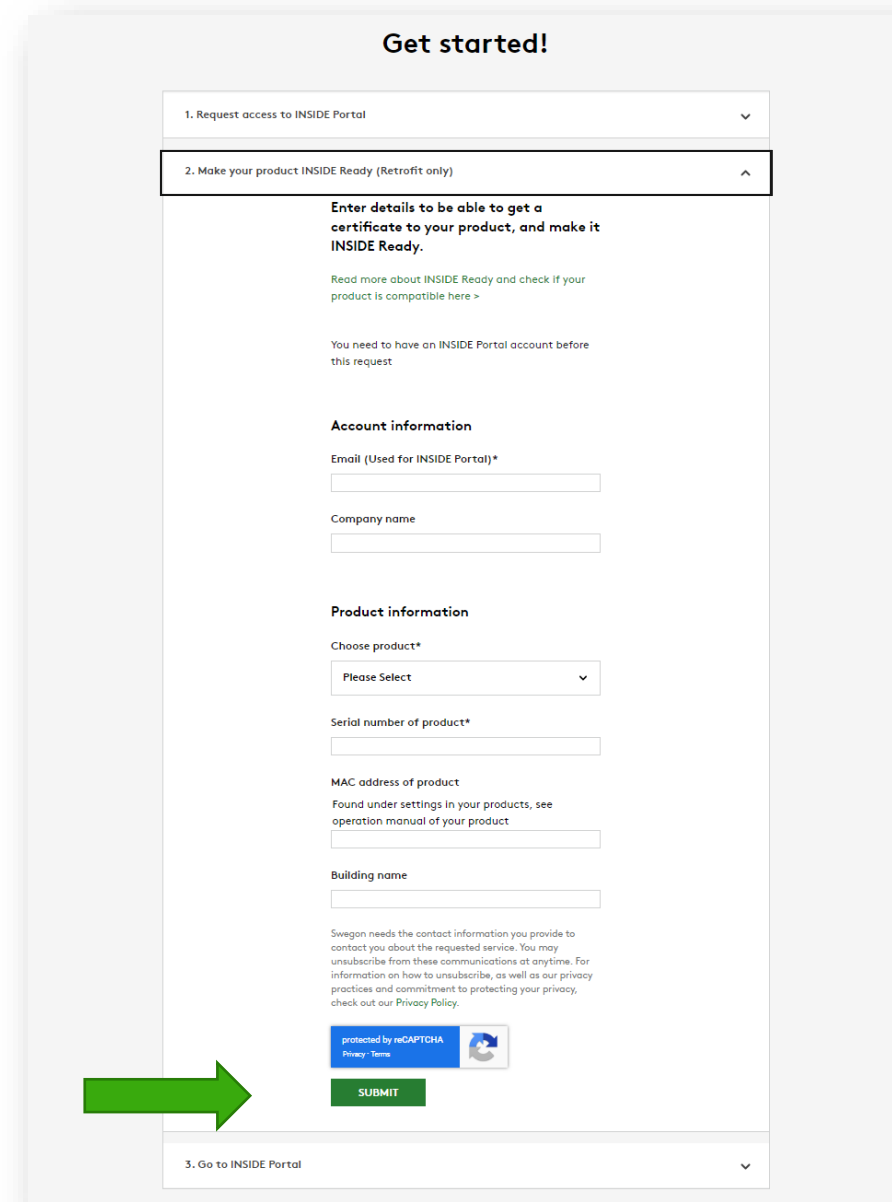

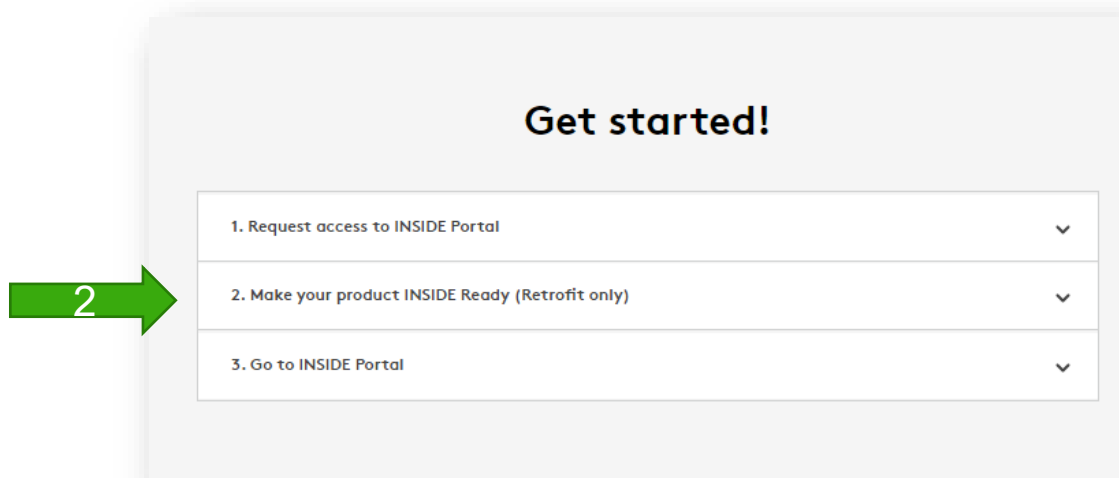

- Go to [Swegon's webpage](#)
 - Software → Connected products
- ① Fill in form number 1 and click Submit

The image shows the 'Request access to INSIDE Portal' form. It includes a title bar '1. Request access to INSIDE Portal', a heading 'Get started!', and instructions: 'Enter details below to request a login.' and 'If you already have an account and wish to add a new product or building, please contact digitalservices@swegon.com'. The form is divided into two sections: 'Account information' and 'Building and product information'. The 'Account information' section has fields for 'Email (will be used as username)*', 'First name*', 'Last name*', and 'Company name*'. The 'Building and product information' section has a 'Choose product*' dropdown menu (set to 'Please Select'), 'Serial number of product*', 'Building name*', 'Building address*', 'City*', and 'Country*' dropdown menu (set to 'Please Select'). At the bottom, there is a 'protected by reCAPTCHA' badge and a green 'SUBMIT' button. A green arrow points to the 'SUBMIT' button.

Make your WISE system INSIDE Ready

- Go to [Swegon's webpage](#)
 - Software → Connected products
- ② Fill in form number 2 and click Submit
 - Do not forget to enter the serial number/name of the WISE and the MAC address of the operating network (important).
 - Wait for email from Swegon with **ID** and **activation code**.

Make your WISE system INSIDE Ready

The screenshot shows the Swegon configuration interface. On the left is a navigation menu with 'Settings' highlighted. The main content area is divided into three sections:

- Left sidebar:** A list of configuration categories including 'Communication' (highlighted with a red box and labeled '1.').
- Middle sidebar:** A list of sub-categories including 'Communication', 'Plan', 'Plan configuration', 'Sequence settings', 'BACnet', 'Site', 'Units', 'Alarm', 'Parameter selection', 'File manager', 'Backup & restore', 'Reset', and 'Language'. 'Communication' is highlighted with a red box and labeled '4.'.
- Main content area:**
 - LAN ports:** Configuration for 'Port 4: Operations network' and 'Port 3: Service'. The 'Primary DNS' and 'Secondary DNS' fields are highlighted with red boxes.
 - Swegon INSIDE:** A section with a 'Swegon INSIDE' toggle switch (checked and highlighted with a red box and labeled '4.'). Below it are fields for 'MQTT via websockets', 'Serial number', and 'Swegon INSIDE certificate'.
 - Swegon INSIDE certificate:** Fields for 'Certificate ID' and 'Activation Code' are highlighted with red boxes and labeled '2.'.

1. Make sure the DNS is filled in.
2. Fill in the Certificate ID and activation code. Click "Activate"
3. Restart SuperWISE
4. Activate Swegon INSIDE.

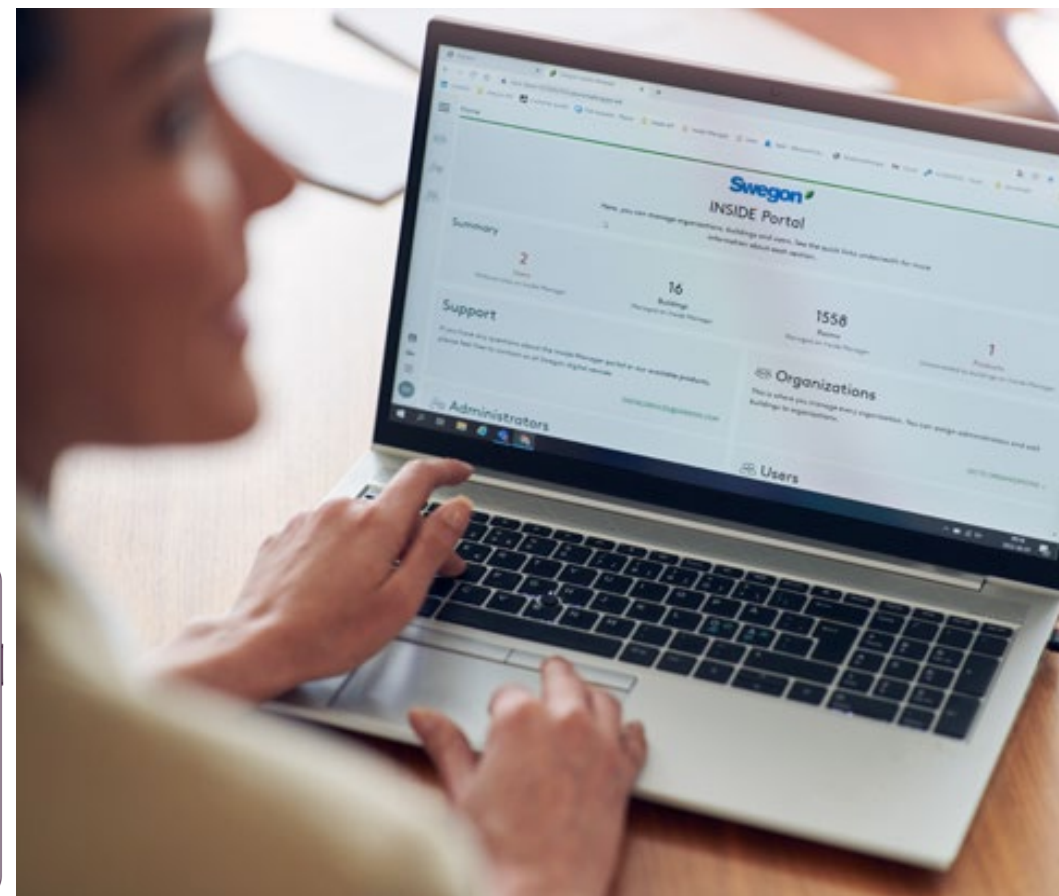

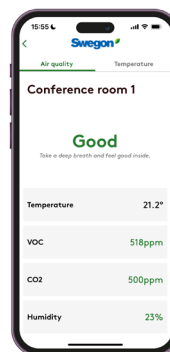

INSIDE Portal

INSIDE Portal is the platform for all connected Swegon products and the hub for Swegon's digital services.

INSIDE Portal

Starting point for connected Swegon products

- Free of charge
- Overview of key parameters
 - System overview
 - Maximum and minimum temperature
 - Heating/cooling demand status
 - Occupancy rate
 - Active alarms
- Invite users to the INSIDE App
